

1. Pls make the Post Alert Text smaller as in the design in right. **Bring it to the right corner all the way.**

2. **Bring the menu icon to the left corner, so it would be menu then logo. Please use the menu style icon in the design.**

3. The text should have bit more weight/thickness

4. The Separators in the UX are almost non-visible. Please add bit more weight and color as in the design.

1. Separators and the boxes are not visible like in the design. Please add bit more color and weight.

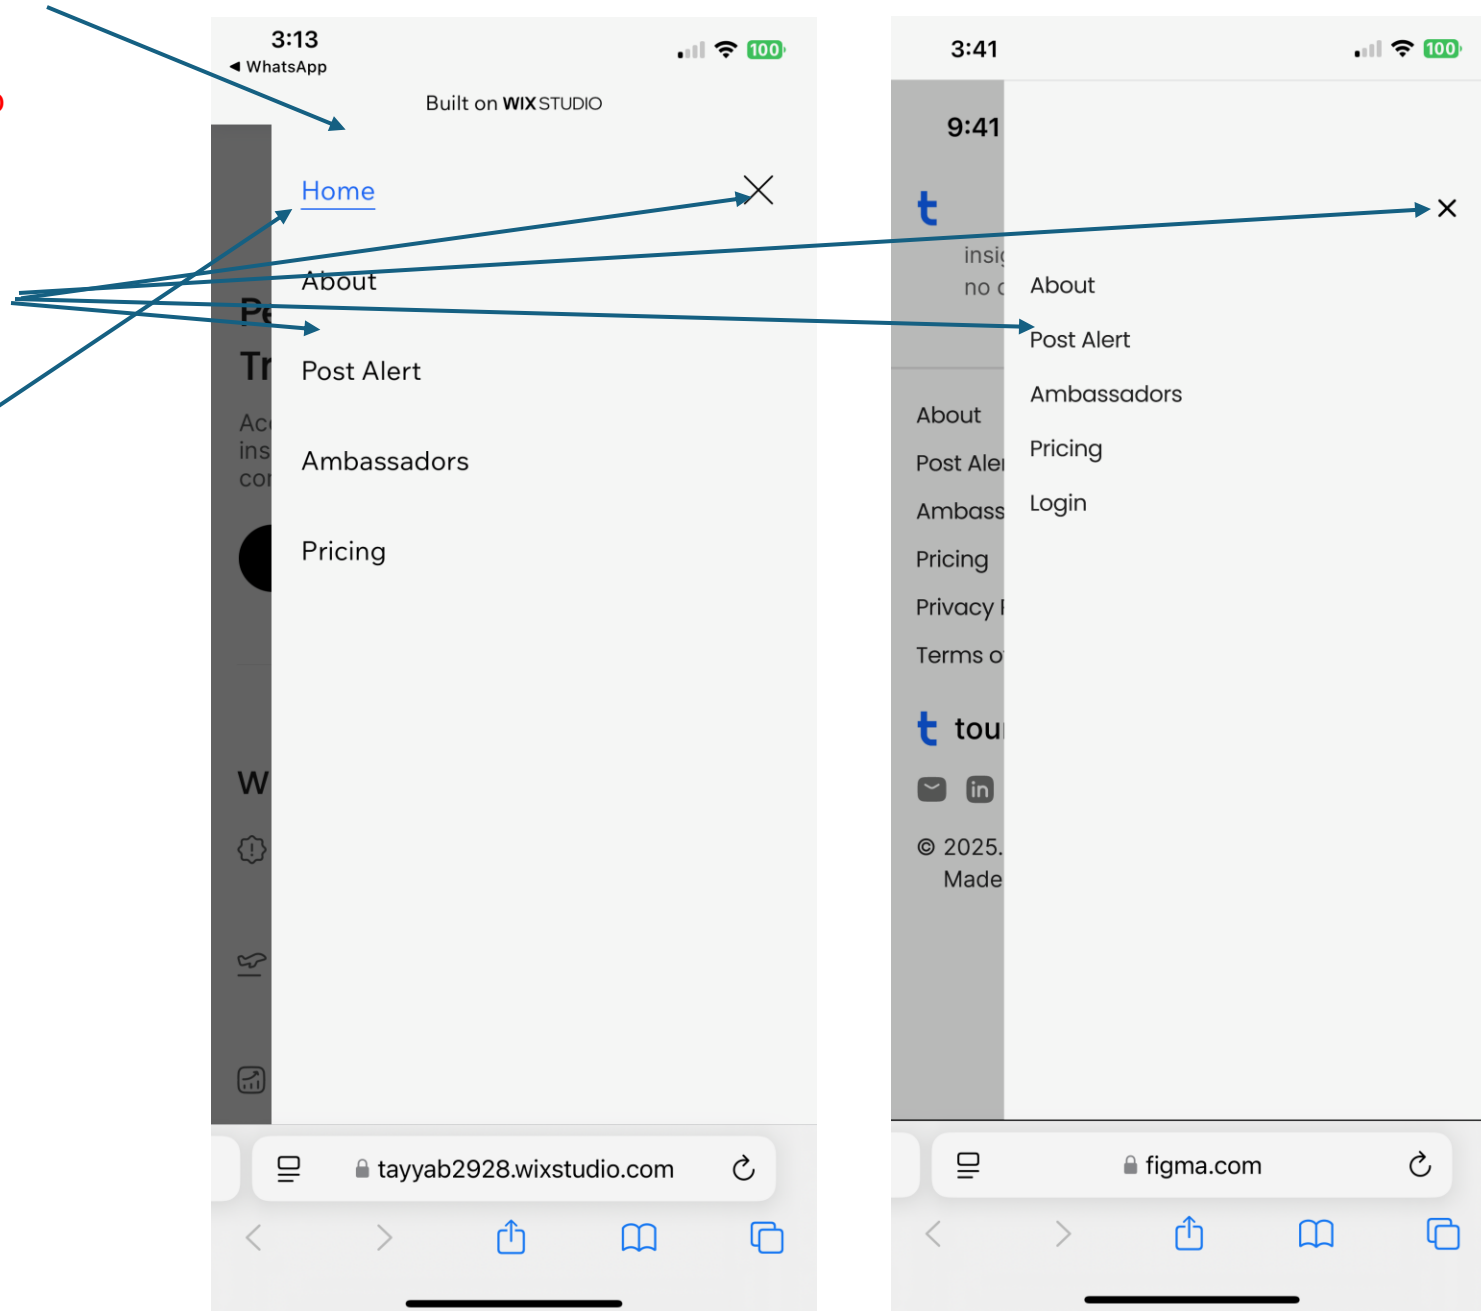

2. Please adjust the error in spacing here

3. please add slightly bit more space within sections as they look a bit congested

1. Now that we've brought the menu to left corner, this should open from left to right instead of right to left.

2. Please copy the same font size, spacing as in the design. You can copy paste same from the footer as well as its exactly same.

3. You may delete the Home, as its redundant.

1. Please add more spacing between as it looks a bit congested.

2. the placeholder font type looks different from design

3. header to be consistent with rest (bold)

4. This placement is good. But please reduce the color slightly as it stands out too much.

5. Make the button default color black not grey. When clicked, the blue effect like in home page CTA

6. Submit text to have more thickness like in the design
